

Europass Curriculum Vitae

Personal information

First name(s) /
Surname(s)

Aurelia Gaeta

Address(es) Microbiology and Virology Department – Sapienza University / Policlinico Umberto I Hospital
P.le Aldo Moro 5, 00185 Rome

Telephone(s) +39 0649914878

Fax(es) +39 0649974296

E-mail aurelia.gaeta@uniroma1.it

Nationality italian

Date of birth 5th June 1956

Registration at the General Medical Council of Rome n. 34430

Occupational field

Microbiology and Clinical Microbiology

Work experience

I essentially carried out research activity on Herpesvirus infections in immunocompromised patients, using conventional and molecular methods.

My studies were addressed to:

Cytomegalovirus infection in the monitoring of immunocompromised patients and in mother-foetus transmitted infections
Epstein-Barr virus role in the onset of lymphoproliferative disorders

HHV6 infections in patients with Crohn disease

Molecular diagnosis of Herpesvirus in patients with acute and persistent Central Nervous System disorders HHV8
transmission by vector insect.

From 1988 up to now I have taken part in several Research Projects of the Sapienza University and from 1990 to 1995 I contributed to a finalized project of the National Research Centre (CNR): Prevention and control of disease factors (FATMA)

2001 at present

Occupation or
position held

Confirmed Researcher SSD MED07

Main activities and
responsibilities

Molecular diagnostics aspects of Herpesvirus infection. Herpesvirus monitoring in organ transplant recipients and in other immunosuppressive conditions. Molecular Epstein Barr virus diagnosis in Post-transplant lymphoproliferative disorders. Diagnostic approach in Cytomegalovirus congenital infection. Herpesvirus detection in acute and chronic neurological diseases. Genomic variability in drug resistant Cytomegalovirus strains

Name and address
of employer

Department of Public Health and Infectious Diseases, Sapienza University
P.le Aldo Moro, 5 – 00185 Rome, Italy

Sector

Microbiology and Clinical Microbiology

1987 at present																															
Occupation or position held	Medical Assistant Department of Diagnostic Medicine, Policlinico Umberto I Hospital in Rome.																														
Main activities and responsibilities	Serological diagnosis of hepatitis. Serological diagnosis of Herpesvirus: detection IgM and IgG by ELISA, and automatic EIA systems. Immunoblotting. Detection of Herpesvirus genomes by molecular methods: HCMV pp65 antigen, nested PCR, real time PCR. Identification of drug resistant HCMV genotype. Bacteriological diagnosis, antimicrobial sensitivity tests																														
Name and address of employer	Department of Diagnostic Medicine Policlinico Umberto I Hospital																														
Sector	Clinical Microbiology / Virology																														
1985 - 2001																															
Occupation or position held	Graduated Technical Officer																														
Main activities and responsibilities	Study on monocytes cytotoxic activity. Study on tumour necrosis factor in adult patients affected by distress respiratory syndrome. Serological diagnosis of Herpesvirus: detection IgM and IgG by ELISA. Cell culture for viral detection. Detection of Herpesvirus genomes by molecular methods: HCMV pp65 antigen, nested PCR.																														
Name and address of employer	I Clinic Microbiology Chair Sapienza University of Roma																														
Sector	Microbiology and Clinical Microbiology																														
Education and training																															
1997	Specialization Diploma in Microbiology and Virology, Sapienza University of Rome (70/70 cum laude)																														
1988	Specialization Diploma in Laboratory Clinical Analysis, Sapienza University of Rome (70/70 cum laude)																														
1985	Fellowship Grant, Pasteur Institute - Cenci Bolognetti Foundation on monocyte cytotoxic activity at Scripps Clinic and Research Foundation, La Jolla San Diego, California USA																														
1983	Degree in Medicine and Surgery (110/110 cum laude), and qualification as Medical Doctor																														
Personal skills and competences	<p>I essentially carried out research activity on Herpesvirus infections in immunocompromised patients, using conventional and molecular methods.</p> <p>My studies were addressed to:</p> <ul style="list-style-type: none"> Cytomegalovirus infection in the monitoring of immunocompromised patients and in mother-foetus transmitted infections Epstein-Barr virus role in the onset of lymphoproliferative disorders HHV6 infections in patients with Crohn disease and its implication in Bell's palsy Molecular diagnosis of Herpesvirus in patients with acute and persistent Central Nervous System disorders HHV8 transmission by vector insect From 1988 up to now I have taken part in several Research Projects of the Sapienza University and from 1990 to 1995 I contributed to a finalized project of the National Research Centre (CNR): Prevention and control of disease factors (FATMA).

Teaching Experiences

2011-2017 Microbiology at Neurofisiopathology Technique Course, Sapienza University of Rome, Umberto I Hospital
2013-2017 Microbiology and Clinical Microbiology at Health Care Course, Sapienza University of Rome, Umberto I Hospital
2003 – 2017 Microbiology and Clinical Microbiology at Course in Prevention Techniques in the Environment and the Place of Job, Sapienza University of Rome, Umberto I Hospital
2001 – 2017 Laboratory Medicine, Medicine and Surgery School "C", Sapienza University of Rome
2008-2011 Microbiology and Clinical Microbiology at Nursing Science Course, Sapienza University of Rome, IRCCS San Raffaele
2007-2011 Microbiology and Clinical Microbiology at Laboratory Techniques Course, Sapienza University of Rome, IRCCS San Raffaele
2003 – 2013 Microbiology and Clinical Microbiology at Course in Prevention Techniques in the Environment and the Place of Job, Sapienza University of Rome, ASL Frosinone
2001 – 2011 Virological diagnostic analysis - Microbiology and Virology Diploma of Specialization, Sapienza University of Rome
2009 – 2010 Infective Diseases at Laboratory Techniques Course, Sapienza University of Rome, IRCCS San Raffaele
2007-2011 Microbiology and Clinical Microbiology at Laboratory Techniques Course – Sapienza University of Rome, ASL Viterbo

Membership

Italian Association of Clinical Microbiology (AMCLI)
Italian Society of Medical Virology (SIVIM)
Italian Society of Virology (SIV)
SIV-AMCLI Transplant Surveillance Group
